Integration Example

Presentate + Navigator

Clean & Automated Navigation

1. Introduction

1.1. Key Concepts

1.2. Why use both?

1. Introduction
    1.1. Key Concepts
    1.2. Why use both?

- **Navigator** handles the structure.
- **Presentate** handles the slides.
- Integration is done via a simple wrapper.

1. Introduction

1.1. Key Concepts

1.2. Why use both?

You get the flexibility of Presentate with the automated visual aids of Navigator.

2. Features

2.1. Automated Transitions

2.2. Miniframes Progress

2. Features

2.1. Automated Transitions

2.2. Miniframes Progress

Notice the slide before this one? It was generated automatically by the transition engine.

2. Features

2.1. Automated Transitions

2.2. Miniframes Progress

Look at the dots in the header. They track your progress within each section.

3. Conclusion

Happy Presenting with Typst!
