01 | Introduction

beautitled is a Typst package that provides 19 beautiful, print-friendly title styles for documents. It is designed for educational materials, academic papers, textbooks, and any document that needs professional heading styles.

■ 1 Features

- **19 distinctive styles** - From classic academic to modern creative
- **Print-friendly** - All styles use minimal ink (no heavy backgrounds)
- **Fully configurable** - Colors, sizes, spacing, and numbering
- **Multilingual** - Customizable prefixes for any language
- **Native Typst support** - Works with `=` `Heading` syntax
- **Four heading levels** - Chapter, section, subsection, subsubsection

02 | Quick Start

■ 1 Installation

```
#import "@local/beautitled:0.1.0": *
```

■ 2 Basic Usage

```
#import "@local/beautitled:0.1.0": *

#beautitled-setup(style: "titled")
#show: beautitled-init

= My Chapter Title
== My Section Title
=== My Subsection Title
==== My Subsubsection Title
```

03 | Configuration

All configuration is done through the `beautitled-setup` function. You can call it multiple times to change settings at any point in your document.

06 ❙ **Table of Contents**

──────

beautitled provides a styled table of contents that matches your heading style.

■ **1 Basic Usage**

```
#beautitled-toc()
```

■ **2 Custom Title**

```
#beautitled-toc(title: "Contents")
#beautitled-toc(title: "Table of Contents")
#beautitled-toc(title: "Sommaire")
```

■ **3 Parameters**

Parameter	Default	Description
title	"Table of Contents"	Title displayed above the TOC
depth	3	Maximum heading level to include (1=chapters, 2=+sections, 3=+subsections)
style	none	Override style for TOC (none = use heading style)
title-align	center	Title alignment: center, left, or right

4 Simple Style with Sections Only

For a clean, flat TOC showing only sections (no chapters):

```
#beautitled-toc(
  title: "Table of Contents",
  style: "simple",
  title-align: left,
  depth: 2,  // Show chapters and sections only
)
```

5 Mixing Styles

You can use different styles for your headings and TOC:

```
#beautitled-setup(style: "titled")
#show: beautitled-init

// TOC uses "scholarly" style
#beautitled-toc(title: "Contents", style: "scholarly")

= First Chapter
...
```

6 TOC Configuration Options

These options can be set via `beautitled-setup`:

Parameter	Default	Description
toc-style	none	Different style for TOC (overrides heading style)
toc-indent	1em	Indentation per level
toc-chapter-size	12pt	Font size for chapters in TOC
toc-section-size	11pt	Font size for sections in TOC
toc-subsection-size	10pt	Font size for subsections in TOC
toc-fill	repeat[.]	Fill between title and page number
toc-show-subsections	true	Include subsections in TOC

07 ▏ Page Breaks

Enable automatic page breaks before chapters:

```
#beautitled-setup(
  style: "textbook",
  chapter-pagebreak: true,
)
#show: beautitled-init

= First Chapter
// Content...
```

```
= Second Chapter  // Automatic page break here
// Content...
```

Note: The first chapter does not trigger a page break.

08 | Built-in Presets

beautitled includes several presets for common configurations. Presets are called **before** `beautitled-init`:

1 Complete Example

```
#import "@local/beautitled:0.1.0": *

// 1. Choose a style
#beautitled-setup(style: "scholarly")

// 2. Apply language preset
#preset-english()

// 3. Apply color theme
#theme-ocean()

// 4. Initialize
#show: beautitled-init

= My Chapter
== My Section
```

2 Language Presets

```
#preset-french()      // "Chapitre", "Section"
#preset-english()     // "Chapter", "Section"
#preset-german()      // "Kapitel", "Abschnitt"
#preset-no-numbers()  // Hide all numbering
```

3 Color Themes

```
#theme-ocean()   // Blue tones
#theme-forest()  // Green tones
#theme-royal()   // Purple tones
#theme-mono()    // Grayscale
#theme-warm()    // Orange/brown tones
#theme-coral()   // Red tones
```

09 | Tips and Best Practices

1 Choosing a Style

- **For math/science textbooks:** `titled`, `schoolbook`, `textbook`, `academic`
- **For course notes:** `notes`, `clean`, `minimal`
- **For formal academic papers:** `scholarly`, `classical`, `academic`
- **For creative projects:** `creative`, `modern`, `magazine`

- **For classic book feel:** `vintage`, `elegant`

■ 2 Print Considerations

All styles are designed to be print-friendly:

- No heavy background fills
- Thin strokes and borders
- High contrast text
- Minimal ink usage

■ 3 Combining with Other Packages

beautitled works well with other Typst packages. Just make sure to call `beautitled-setup` after importing the package.

010 | Changelog

■ 1 Version 0.1.0

- Initial release
- 19 styles
- Full configuration support
- Native Typst heading support
- Language presets
- Color themes
- Styled Table of Contents
- Page break support
