Quick Start

Minimal Document

```
#import "@preview/folio:0.0.1": project-doc

#show: project-doc(
  data: (
    project: (name: "My Project", description: "A short description."),
  ),
)
```

This produces a document with a cover page and any sections where data is present.

Presets

Three brand presets are available out of the box:

Preset	Character	Best For
"minimal"	Serif, no rounded corners, grayscale	Thesis, academic submissions
"corporate"	Sans-serif, blue, rounded cards	Project plans, RFPs
"academic"	New Computer Modern, deep blue, formal spacing	Academic project briefs

Sections

All 28 PMBOK-aligned sections are listed in `docs/PIPELINE.md`. Sections are skipped automatically when data is missing (auto mode) or can be forced on/off via `config.sections`.

Documents

Three example documents are provided:

examples/full-standards.typ

Full pipeline — all sections, corporate brand, audit dashboard enabled.

examples/thesis.typ

Academic brand, initiation + planning phases only.

examples/hardware.typ

Corporate navy brand, full budget, risks, compliance, custom safety section.

Further Reading

- `docs/SCHEMA.md` — Complete field reference (30+ paths, types, examples)
- `docs/BRAND.md` — Token groups, preset descriptions, customization guide
- `docs/PIPELINE.md` — All 28 sections, custom injection, config reference
