| Formal Sign-Off .....                                                                | 5 |

## Initiation

**Apply transformer-based models to analyze emotional drift in niche communities.**

Apply transformer-based models to analyze emotional drift in niche communities.

**Academic research requirement for graduation.**

Academic research requirement for graduation.

## Project Objectives

| ID    | Objective            | Priority |
|-------|----------------------|----------|
| OBJ-1 | Collect 1M comments  | high     |
| OBJ-2 | Fine-tune BERT model | high     |
| OBJ-3 | Write 60-page report | neutral  |

## Planning

### Project Boundaries (Scope)

#### In Scope

- Data scraping
- Model training
- Statistical analysis

#### Out of Scope

- Real-time web dashboard
- Deployment to production

### Milestones

| Date         | Milestone        | Status  |
|--------------|------------------|---------|
| May 15, 2026 | Proposal Defense | Done    |
| Nov 01, 2026 | Draft Submission | Pending |

### Project Team

| Role       | Name            | Contact         |
|------------|-----------------|-----------------|
| Candidate  | I. M. Student   | student@uni.edu |
| Supervisor | Dr. Knows-A-Lot | prof@uni.edu    |

## Closure

### Lessons Learned

| Category | What went wrong                            | Recommendation                            |
|----------|--------------------------------------------|-------------------------------------------|
| Process  | API rate limits were tighter than expected | Always budget 2x time for data collection |

### Formal Sign-Off

| Stakeholder     | Role     | Date/Signature |
|-----------------|----------|----------------|
| Dean of Science | Approval | _____          |
