Field Status Detail

Path	Severity	Status	Phase
project.name	critical	Present	meta
project.description	important	Present	meta
governance.team	important	Present	meta
initiation.pitch	critical	Present	initiation
initiation.business_case	important	Present	initiation
initiation.objectives	recommended	Present	initiation
initiation.success_criteria	recommended	Present	initiation
initiation.stakeholders	important	Present	initiation
initiation.assumptions_log	recommended	Present	initiation
baselines.scope	important	Present	planning
baselines.requirements	important	Present	planning
baselines.schedule.milestones	recommended	Present	planning
baselines.schedule.gantt	important	Present	planning
baselines.financials.budget	important	Present	planning
baselines.quality	recommended	Present	planning
baselines.communication	recommended	Present	planning
baselines.risk_strategy	recommended	Present	planning
baselines.compliance	recommended	Present	planning
execution.status	recommended	Present	execution
registers.risk_register	important	Present	execution
registers.issue_log	recommended	Present	execution
registers.change_log	recommended	Present	execution
registers.decision_log	recommended	Present	execution
registers.deliverables_register	recommended	Present	execution
closure.lessons_learned	recommended	Present	closure
