Personal Profile

Undergraduate student in Computer Science at Harvey Mudd College with a strong foundation in computer science and mathematics. Combining rigorous academic training with hands-on experience in software engineering, systems security, and open-source development, I am passionate about building reliable, well-documented software. I am seeking opportunities in software engineering and security where I can leverage my analytical mindset and technical versatility to build robust, scalable systems.

Education

Bachelor of Science, Computer Science and Mathematics Aug 2023 – May 2027
Harvey Mudd College *Claremont, CA*

- Cumulative GPA: 4.0/4.0 | Dean's List, Harvey S. Mudd Merit Scholarship, National Merit Scholarship
- Relevant Coursework: Data Structures, Program Development, Microprocessors, Abstract Algebra: Groups and Rings, Linear Algebra, Discrete Mathematics, Multivariable & Single Variable Calculus, Principles and Practice of Comp Sci

Work Experience

Subatomic Shepherd and Caffeine Connoisseur May 2024 – Present
Microscopic Circus, Schrodinger's University *Atomville, CA*

- Played God with tiny molecules, making them dance to uncover the secrets of the universe
- Convinced high-performance computers to work overtime without unions, reducing simulation time by 50%
- Wowed a room full of nerds with pretty pictures of invisible things and imaginary findings

AI Wrangler and Code Ninja Dec 2023 – Mar 2024
Organic Stupidity Startup *Silicon Mirage, CA*

- Taught robots to predict when (and how much!) humans will empty their wallets at the doctor's office
- Developed HIPAA-compliant digital signatures, because doctors' handwriting wasn't illegible enough already
- Turned spaghetti code into a gourmet dish, making other interns drool with envy

Code Conjurer Intern Jun 2022 – Aug 2022
Bits & Bytes Consulting *Silicon Suburb, CA*

- Developed a cross-platform mobile app that turned every user into a potential paparazzi
- Led a security overhaul, heroically saving the company from the menace of "password123"

Projects

Maintainer, Hyperschedule (hyperschedule.io) Nov 2023 – Present

- Maintain open-source scheduler used by 7000+ users at Claremont Consortium with TypeScript, React and MongoDB
  - Manage PR reviews, bug fixes, and coordinate with college for releasing scheduling data
- Ensure 99.99% uptime during peak loads of 1M daily requests during course registration through redundant servers

Skills

Programming Languages	JavaScript, Python, C/C++, HTML/CSS, Java, Bash, R, Flutter, Dart
Frameworks	React, Astro, Svelte, Tailwind CSS
Developer Tools	Git, UNIX, Docker, Caddy, NGINX
Cloud Platforms	Google Cloud Platform, Kubernetes, CI/CD

Extracurricular Activities

- Founder of Les Amateurs, ranked fourth in the US and thirty-third globally on CTFTime Jan 2021 – Present
- Organized AmateursCTF, with over 1,000 teams participating and more than 2,000 USD in prizes 2023, 2024
- Qualified for DEF CON CTF 32 and CSAW CTF, two leading international cybersecurity competitions Sep 2023
- Volunteer test writer for Science Olympiad tournaments, including LA Regionals and SoCal State 2023
