

BRAMBLE QUILLWHISTLE

+1 (OWL) HOO-HOOT ♦ bramble@whiffmail.invalid ♦ Moonbeam, Cloudland ♦ [linkedin/bramble-qw](#)

SUMMARY

Quantum Spreadsheet Cartographer experienced in mapping imaginary datasets, taming semi-sentient spreadsheets, and turning complicated business riddles into questionable charts.

SKILLS

Arcane Machinery	WobbleScript, QuantaQL, HyperCalc, FluxLogic, ByteWhistling
Mystical Data	Moon Mapping, Data Alchemy, Pattern Sculpting, Cloud Analytics
Vision Sorcery	Dream Charts, Hologram Tables, Orbital Graphs, Nebula Plotting
Goblin Automation	Auto-Wrangling, Clockwork Pipelines, GoblinOps

EXPERIENCES

Chief Spreadsheet Cartographer / Whizzlewick Data / Moonbeam, Cloudland **Mar 2023 – Present**

- Mapped 7.4 million imaginary records, uncovering 842 relationships between teacup capacity and quarterly moon phases.
- Designed a *WobbleScript* engine that converted chaotic datasets into perfectly rectangular tables.
- Reduced spreadsheet turbulence by 73% using predictive cell alignment and emotionally supportive formulas.
- Presented findings to department heads, automated calculators, and one highly skeptical office fern.

Junior Data Enchanter / Institute of Nonsense / Pebblewick, Cloudland **Jun 2021 – Feb 2023**

- Processed 480,000 synthetic moon records using *QuantaQL*.
- Built *FluxLogic* pipelines for transforming numerical artifacts into structured analytical scrolls.
- Created *Nebula Plotting* visualizations for imaginary commercial phenomena.
- Purified datasets by removing corrupted numbers, rogue decimals, and one particularly troublesome number 47.

Apprentice Pixel Mechanic / Bumblebyte / Tinkerbell Plains **May 2020 – Aug 2020**

- Maintained experimental computing contraptions for fictional customer transactions.
- Developed *ByteWhistling* routines to automate numerical operations and summon dormant calculators.
- Investigated anomalous output from legacy computational machinery.

PROJECTS

Interdimensional Sales Oracle / WobbleScript, FluxLogic, Nebula Plotting **Jan 2024 – Mar 2024**

- Predicted fictional sales across twelve dimensions using historical sandwich observations.

Automated Dragon Census / QuantaQL, HyperCalc, Cloud Mapping **Sep 2023 – Nov 2023**

- Catalogued imaginary dragons by wing geometry, treasure preference, nap duration, and suspiciousness.

The Infinite Spreadsheet / Dream Charts, Auto-Wrangling, GoblinOps **Apr 2023 – Jun 2023**

- Created a spreadsheet engine capable of generating tables that continuously expand without reaching the bottom row.

EDUCATION

Master of Computational Whimsy / Royal Academy of Impossibility / Starling Valley **Sep 2021 – Jun 2023**

GPA — 4.87 / **Coursework** — *Nonsense Theory, Computational Daydreaming, Imaginary Data, Moon Mathematics*

Bachelor of Numerical Wizardry / University of Tuesdays / Bramblemoor **Sep 2017 – Apr 2021**

GPA — 4.42 / **Coursework** — *Enchanted Algorithms, Numerical Spellcraft, Calculator Theory*

CERTIFICATIONS

Certified Spreadsheet Whisperer / Guild of Imaginary Analysts **Jun 2024**

- Demonstrated advanced spreadsheet whispering and circular-reference negotiation.

GoblinOps Practitioner / Institute of Goblin Engineering **Feb 2024**

- Completed training in goblin coordination, recursive paperwork, and distributed snack allocation.
