HTL Saalfelden Thesis Requirements Template - Manual

Version 0.1.0

Introduction

This package provides a Typst template for creating thesis requirements specifications (Pflichtenheft) for HTL Saalfelden diploma theses.

Usage

Import the template:

```
#import "@preview/htl-saalfelden-thesis-requirements:0.1.4": htl-doc
```

Apply it with parameters:

```
title: Thesis Title
subtitle: Subtitle
lang: en
school-year: "2026/27"
class: "5AHETS"
department: Electrical Engineering
authors: Johannes Höllwerth
candidates:
  - name: Johannes Höllwerth
    class: "5AHETS"
    task: Develop a foo classification system
supervisors:
  - title: Dipl.-Ing. Dr.
    name: Gerhard Gaube
due_date: "15.04.2027"
```

```
#import "@preview/htl-saalfelden-thesis-requirements:0.1.4": htl-doc

#show: htl-doc.with(yaml("requirements.yaml"))
```

Parameters

The template accepts the following key parameters:

- `lang` ("de" or "en", default "de")
- `title`, `subtitle`
- `school`, `department`, `school-year`
- `authors`, `class`, `due_date`
- `candidates`: array of dictionaries with `name`, `class`, `task`
- `supervisors`: array of dictionaries with `title`, `name`
- `cover` (boolean), `doc-type`
- `header-left`, `header-center`, `header-right`
- `footer-left`, `footer-center`, `cover-footer`
- `school-logo`, `htl-logo` (defaults to `assets/*.svg`)
- `font`, `cover-font`
- `usage`, `abstract`, `thesis-number`, `project-number`

See the template source for full details.
